

Zaplox VIRTUAL KIOSK

Zaplox VIRTUAL KIOSK is an alternative way for hotels to offer check in, check out with RFID and Magstripe Keycards. Available in an accessible web browser, the solution is compatible with most tablets and offering your guests the convenience of check in, check out with payment and quick retrieval of keycards upon arrival.

24/7 check in and keycard availability

Whether you are a high touch independent or global hotel chain, your guests will appreciate the 24/7 check in availability and the possibility to create their own keycard, view and manage their folio in the easy to use kiosk interface. This solution is ideal for hotels with keycard locks.

The Zaplox VIRTUAL KIOSK supports multiple screens and allows you to fully customize the look and feel of your kiosks.

Zaplox is the market innovator leading the way in mobile key technology since 2010. We help hotels create a world-class revenue generating mobile guest journey.

KEYLESS

Can co-exist with all current keycard technologies

Benefit from cost savings, increased security and ease-of-use access

PROFITABLE

Deliver better service to your guests

Offers 24/7 guest check in and service without passing the front desk.

SMART

Smart services all the way

Guests can access all services in one convenient solution and staff is freed up to engage with guests.
