# ZAPLOX SDK

## Take your app to the next level

**Zaplox SDK** opens up the opportunity to integrate to your existing mobile app with your PMS and locks. You save time, money and resources with embedded mobile and keyless functionalities as well as value added optional services.

Once guests have downloaded or upgraded to your enhanced mobile app, they can handle their own reservations, check in, open doors using mobile keys, handle payments and check out.

This solution is ideal for hotels and partners interested in enabling a complete mobile guest journey to their current mobile application environment, using our software development kit.

### Zaplox SDK includes:

- Check in
- Check out
- Mobile key
- Payment
- Integrations to Lock and PMS
- Enablers for application push notifications
- Administration portal
- Mobile key usage control in portal
- Usage statistics
- Folio review on check out

### KEYLESS

*Can replace or co-exist with all current key card technologies.*

Benefit from cost savings, increased security and eliminate waste of plastic cards.

### PROFITABLE

*Deliver better service and personalized offers to your guests.*

Easily create revenue generating offers that are customizable to fit various guest segments.

### SMART

*Smart services all the way.*

Guests can access all services from one convenient app and staff is freed up to engage with guests.
