Schani Hotels Signs New Contract and Upgrades to Zaplox New Generation Mobile Guest Journey

Popular boutique hotel in Vienna renews contract with Zaplox to meet increasing demand for mobile check-in and mobile keys, and other mobile guest services.

LUND, SWEDEN — Aug. 6, 2019 — Zaplox AB, a developer of mobile guest journey software for hotels and casinos, announced it has renewed the contract with [Schani Hotels](#), which includes Hotel Schani Wien and the new Hotel Schani Salon, both boutique hotels with a total of 159 rooms in central Vienna in Austria. Schani Hotels, which has offered Zaplox mobile guest journey with mobile keys to its guests since 2015, is continuing to invest in improvements of the guest experience by upgrading to Zaplox Premium to meet the demand for additional mobile guest services.

Zaplox Premium with mobile check-in and checkout and mobile keys has been integrated with the hotel's new property management system [StayNTouch](#) and the new electronic lock system from [ASSA ABLOY Global Solutions](#).

As a result of the upgrade to the new Zaplox Premium, Schani Hotels will continue to offer guests a mobile guest journey without long check-in lines and with easier and more efficient key management. Guests can skip the lines at the front desk and go straight to their room and use their phone to unlock the door –with support for both Android and iOS phones. The upgrade to Zaplox Premium, also allows Schani Hotels to provide additional revenue-generating guest services.

“We are extremely pleased that Schani Hotels has chosen to upgrade to the latest generation of Zaplox's mobile guest journey. Although Schani Hotels is a smaller size hotel chain, the agreement is of great importance because it clearly demonstrates that Zaplox's services create long-lasting value for both our hotel customers and their guests,” said Magnus Friberg, CEO of Zaplox. “Schani Hotels and other Zaplox

customers such as the SkiStar and Lundia Group are all companies that trust in Zaplox's ability to create a more efficient and convenient guest experience, and the renewal of the contract with Schani Hotels shows that they continue to have confidence in Zaplox's ability to deliver a better and more profitable guest journey."

Schani Hotels

Schani Hotels is a family-owned boutique hotel with two hotels in central Vienna. *Hotel Schani Wien* has 135 rooms and was opened by the Komarek family in 2015. Hotel Schani Wien is a charming and innovative hotel, which was the very first hotel to offer a selection of individual rooms, mobile keys, quick check-in, and an integrated collaboration space in the hotel lobby. Located right at the Vienna Central Station, this hotel is a perfect starting point for both business and leisure travelers. The newly opened *Hotel Schani Salon* features 24 rooms and is located just in the center, off Mariahilfer Strasse. It reinterprets the classic Jugendstil and is one of the most extraordinary, history-filled hotels in Vienna. The hotel owner, Benedikt Komarek works closely with the Fraunhofer IAO Institute and continues the family's successful hotel tradition with new trendsetting projects and ideas.
